Agenda Item	Discussion	Action Needed
1. Welcome and Roll Call		
2. Annual SB 823 Plan Review (Discussion & Action)	<ul style="list-style-type: none"> Edits to the plan requested at the March 20, 2025 Special Meeting were reviewed. Feedback provided at the March 20 meeting was incorporated into the plan. The subcommittee agreed to add a table to the report documenting the number of Use of Force and OC Spray Deployment incidents under <i>Using Data for Actionable Insights</i> section on page 75, and add language regarding the reduction of OC Spray usage in Firm Roots Academy. 	

A motion was made by Monica Vaughan to submit the plan as written with the additions of the table and added language regarding UOF and OC Spray incidents. After brief discussion, the motion was withdrawn by the mover before any vote was taken.

- The subcommittee agreed to add/modify language regarding increasing efforts to identify and nurture positive, permanent adult connections for youth, especially when immediate family is unavailable, to support their stability, healing, and long-term success on page 76, under *Enhancing Family Engagement* heading, and add the words “and Permanent Adult Connections” to the heading.

Discussion/Questions:

What has Probation done to address the *Long-Term Vision* plan on page 66 of the report?

The Board of Supervisors and County Administrators would need to approve aspects of this goal. The BSCC and GSA are also involved.

Where can this goal be discussed?

There are ongoing discussions regarding SB 81 funding to rebuild Camp. Probation’s plan for this funding is to rebuild and revitalize Camp Sweeney.

How is the community involved in these discussions and decisions?

The plan will be presented at the Public Protection meeting.

When the subcommittee created and voted for this plan, it was assumed that Probation would take steps to implement it.

While Probation is doing their best to implement as much of the plan as possible, the department, county, and Board are not legally obligated to implement all aspects. The plan is aspirational and includes long-term goals.

There was a request for a community meeting to discuss the plan to rebuild Camp Sweeney.

- It was agreed to add a paragraph on page 67 stating, “Although this subcommittee’s long-term vision continues to include closing or repurposing the current juvenile hall and creating smaller, more developmentally appropriate, homelike models, we recognize that this body is not the appropriate entity to implement that vision directly. However, this sub-committee remains committed to advocating for the next steps, including working to identify the appropriate body or leadership structure that can drive this long-term transformation forward. While the broader vision has not yet been set in motion, we remain aligned with the commitment to advance a more compassionate and effective juvenile justice approach in Alameda County.”
- Probation to clarify the roles of RJOY and JIOs as written on page 50.

Probation to work with the Board to find an appropriate body for the discussion to rebuild Camp Sweeney.
