- Supplementals

Importance of BriefCASE

This initiative aligns with the Department's mission to support and restore communities by delivering compassionate supervision and accountability to justice-involved clients. It also provides preventive and rehabilitative services through evidence-based practices and collaborative partnerships. This effort supports our vision: The Alameda County Probation Department is dedicated to making our communities the safest in the nation.

The Supervisor's EBP BriefCASE (Coach and Advance Staff in EBP) is a 23-module curriculum designed to enhance evidence-based practices. Supervisors deliver one-hour sessions each month to their staff, reinforcing key skills. This program was created in response to the growing need for continuous skill reinforcement through booster training and coaching. Supervisors are uniquely positioned to offer this ongoing mentorship. In addition, The Carey Group provides supplemental BriefCASE sets, including the Trauma and Resilience Series and the Manager's BriefCASE.

Skill Card Topics

- The Risk, Need, & Responsivity Principles
- Prosocial Modeling & Positive Reinforcement
- Addressing Antisocial Attitudes
- Appointment Feedback Questions
- Sharing Assessment Results
- Identifying the Driver
- Using the Carey Guides
- Addressing Thinking Traps
- Case Planning Strategies
- And many more...

Supplementals

TRAUMA AND RESILIENCE

Get ready to dive into a transformative series that explores the powerful connections between trauma, being unhoused, mental illness, and the hope that resilience brings.

MANAGER'S EBP

The specific goal of the Manager's EBP BriefCASE is to ensure that the entire management team has a high level of knowledge and skill regarding evidence-based practices to support supervisors.
