

Unlocking the Secret to Client Success

WHAT'S IN THIS ISSUE:

- THANK YOU!!!
- Case Plan Essentials
- DPOs as a Resource
- New Enterprise Features
- Upcoming Trainings

First and foremost, a huge **THANK YOU** to everyone whose work supports making our communities the safest in the nation. Your dedication makes all the difference. Particularly, DPOs have always been the primary resource for supporting positive behavior change. Everything truly starts with **YOU!** When you have a client's attention, you are in the perfect position to skill-build, tackle challenges head-on, and inspire a real willingness to change. And do not worry—CBOs will still be right there, backing up our efforts and ensuring we are providing the best support possible.

Case Plan Essentials & DPOs as a Resource

DPOs play a critical role in supporting clients' case plans by serving as guides, connectors, and motivators. By taking a proactive, supportive, and evidence-based approach, DPOs can help clients successfully complete supervision and exit the justice system.

Assessment & Goal Setting: Conduct risk and needs assessments to develop individualized, realistic case plans with clear goals.

Motivational Interviewing: Use MI techniques to enhance engagement, build rapport, and increase commitment to change.

Referrals & Resource Navigation: Connect clients to essential services like housing, employment, education, and treatment.

Cognitive-Behavioral Coaching: Provide brief interventions to help develop problem-solving, decision-making, and coping skills.

Accountability & Support: Balance accountability with encouragement, reinforcing positive behavior changes while addressing setbacks.

Advocacy & Collaboration: Work with community partners, treatment providers, and family members to create a strong support system.

Monitoring & Plan Adjustments: Regularly review progress and adjust case plans as needed to reflect changing circumstances.

Enhancing Enterprise Supervision with Heartfelt Features

The Ability to Set Timeframes

Enterprise is on the verge of a game-changing upgrade! Soon, it will set clear timeframes for each goal and objective within case plans, ensuring progress is tracked effectively and individuals stay on course toward their rehabilitation targets.

New Goals, Objectives, & Techniques

After training, Enterprise will adopt a refreshed, evidence-based approach to goal-setting, integrating The Carey Group language. This structured framework will make goals, objectives, and techniques more actionable, driving better outcomes for probation success!

If you want to enhance your case planning and management skills, register for The Carey Group's Effective Case Planning & Management:
